ol, Oct. 30.—Byron Nebeker of Op., returned yesterday from

OIL IN SPANISH FORK. White Star Company Gets a Flow at 287 Feet.

After losing one well, purchasing a leet from the first one, the White Stat Oil company, with property in the Dairy fork of Spanish Fork canyon, has again struck oil, and Manager George E. Blair is up from the well

yell quickly reimburse them be detrieved as the first stration of the dividends that will hardly han what the best mines of are paying today.

The paying today, the first stration of water paying today of water, carrying sulphur and magnesia, came in also. When Manager Blair left this water was being eased off, and when that work was done he expected a goodly amount of oil could be pumped up, and if the well it was the water problem that stag, who undertook it until the water problem that stag, who undertook it until the water stepped in. The mine water well worked out down the level, and to go deeper do be brought in capable ag from 700 to 1,000 gallons per minute.

It is made that is expected a goodly amount of oil could be pumped up, and if the well it whom the water problem that stag, who undertook it until the waters well worked out down the level, and to go deeper do to be brought in capable ag from 700 to 1,000 gallons per minute.

It is a mile through the tunnel penetrated the mountain and great ore-bearing channels, was made compressed air, mes were laid and. Raddatz at the helm sinkmertaken. At a point about the below the water level a sent out till the first ore a encountered, and the management will go back and "shool" the water and is of a very fine quality, with a paraffine base, and the management has every confidence that still better results will follow the catting of the wet stratum.

"We are located a short distance would off will Fork station," said Manager Blair, "ani 500 feet higher. If we get oil in the quantity we expect, it will be an easy matter to carry it down to the tunnel was reached.

will be an easy matter to carry it down to the station in a pipe line, and that we shall certainly do."

The strike of the White Star company demonstrates that Utah has oil and there is no doubt that the next few months will result in many well! being opened in the different fields, as not less than a dozen rigs are now either in transit or on the ground.

Curb Transactions.

Business was lively on the curb yestrday. Nearly 16,000 shares of California were soid at prices running all the ay from \$1.08 down to \$1.08. at which closed. Uncle Sam was also in great mand, selling from \$4 cents up to \$9%, unts, and closing at \$8 cents. About 60 thares changed hands, the bulk of bringing over \$6 cents. Carisa sold at 15½ to \$1.16½, with probably 3,000 shares anging hands. Ben Butler got rough the day up to within a few inutes of closing time with the sale of out 3,500 shares at 16½ cents to 19½ to \$1.000, and it was instantly acpted. The purchaser asked for 2,000 ore at the same price and was accompleted. A moment later the seller animed that he had \$,000 more at the me figure and that was taken by anier broker. A few minutes later 500 anged hands at 16½ cents.

BUSINESS AND FINANCIAL NEWS

Manipulation for Advance on New York Exchange.

VOLUME OF DEALINGS SMALL

PROSPECT OF IMPROVED CONDI-TIONS IN NATIONAL LEAD.

New York, Oct. 30.—The volume of dealings fell off still further today and were again congested in a few stocks in which there was rather obvious manipulation. The manipulation was for the advance, but its effect was confined to the leading active stocks so far as any notable results were conceined. The general list results were concerned. The general was sluggish and hesitating and flu

A mother's poor health is bad enough for the mother but worse still for the nursing

Mothers find Scott's Emulsion a nourishing and strengthening food. If the breast milk is scanty or thin rich and more abundant.

Emulsion the babies share in the benefits. Thin babies grow fat. Weak babies get strong.
